Tobacco Stocks Report as of January 1, 1970

U. S. DEPARTMENT OF AGRICULTURE CONSUMER AND MARKETING SERVICE TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

Washington, D. C. February 24, 1970

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced principally in the Piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced principally in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced principally in the coastal sections of South Carolina, and the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced principally in southern Georgia and northern Florida.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkins-ville; produced principally in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced principally in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

CLASS 3, AIR-CURED TYPES

LIGHT AIR-CURED (CLASS 3a)

Type 31: Burley; produced principally in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Type 32: Southern Maryland; produced principally in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

DARK AIR-CURED (CLASS 3b)

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced principally in central Virginia, north of the James River.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced principally in Lancaster County, Pa., and the adjoining counties.

Type 42-44: Ohio filler; produced principally in the Miami Valley section of Ohio and extending into Indiana.

Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

Type 81: Cuba.

Type 82: Indonesia.

Type 83: Philippine Islands.

Type 84: Brazil.

Type 85: Colombia.

Type 86: Dominican Republic.

Type 87: Paraguay.

Type 88: Mexico.

Type 89: All foreign-grown cigar-leaf.

Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/ Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,959 million pounds as of January 1, 1970, based on the quarterly reports of dealers and manufacturers. This is a decline of 220 million pounds compared with the previous January 1.

Marketing by growers of the 1969 crop prior to January 1 was approximately 1,546 million pounds, or 85 percent of estimated production.

Stocks as of January 1 included about 1,256 million pounds of leaf tobacco under Government loans, an increase of 12 million pounds from a year ago. Burley was directly responsible for this gain in inventories. Loan stocks as of January 1, 1970 were divided as follows: Flue-cured, 790.7 million pounds; burley 433.2 million; fire-cured, 12.1 million; dark air-cured, 16.1 million; and cigar leaf, 3.9 million pounds.

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (see table in body of report for reported weight basis,) This report is issued quarterly.

^{2/} All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Both foreign & domestic decline

Stocks of <u>flue-cured</u> tobacco totaled 2,461 million pounds on January 1, 1970 -- a drop of 151 million from last January 1. Final producers sales of the 1969 crop are estimated at 1,050 million pounds, about 55 million above last season.

Burley holdings this January 1 were 1,588 million pounds -- 19 million below the stocks of a year ago. Producers sales on the auction markets prior to January 1 this season totaled about 465 million pounds, or 80 percent of the crop.

Maryland stocks as of January 1, 1970 were 66.7 million pounds -- 14.8 million below a year ago.

Stocks of foreign-grown cigarette and smoking tobacco were 412.2 million pounds, a small decline of 4.3 million from last January 1.

DARK TOBACCO STOCKS

Both fire and dark air-cured show declines

Fire-cured stocks, reported at 69.6 million pounds on January 1, 1970, were 14.4 million below those of a year ago. All three types had smaller inventories. Virginia fire-cured holdings were 9.8 million pounds; Eastern District Kentucky and Tennessee 48.6 million; and Western District, 11.3 million. Sales of the 1969 crop of Type 21 prior to January 1 were about 3.0 million. Markets in Types 22 and 23 did not open until after January 1.

Holdings of dark air-cured tobacco totaled 63.6 million pounds on January 1, 1970, $\frac{1.0 \text{ million less than last year.}}{1.0 \text{ million less than last year.}}$ An increase in One-Sucker was offset by declines in the other types.

One-Sucker stocks this January 1 were 39.7 million pounds; Green River, 20.1 million; and Virginia Sun-cured, 3.8 million. Auction sales of dark air-cured leaf prior to January 1 were about 8.9 million pounds.

CIGAR LEAF STOCKS

Domestic leaf lower, imported higher

Holdings of all domestic types of cigar leaf tobacco were reported as 197.9 million pounds on January 1, 1970 -- a drop of 21.0 million pounds from a year ago. Stocks of foreign-grown cigar leaf totaled 94.8 million pounds, a gain of 3.9 million.

Cigar filler stocks totaling 124.6 million pounds were 12.9 million smaller than those of year ago. Pennsylvania Seedleaf stocks this January 1 were 91.8 million pounds; Ohio filler, 9.6 million; and Puerto Rican, 23.2 million.

Stocks of <u>Cigar binder</u> types were 46.0 million pounds on January 1, 1970 (53.1 million the previous year). Stocks of Connecticut Valley Broadleaf were 6.1 million pounds; Connecticut Valley Havana Seed, 3.0 million; Southern Wisconsin, 17.6 million; and Northern Wisconsin, 19.4 million.

Shade - grown cigar wrapper stocks this January 1 were 27.3 million pounds -- down 1.0 million from the previous year. Stocks of Connecticut Valley Shade on January 1, 1970 totaled 15.6 million pounds; and Georgia-Florida Shade, 11.7 million.

Stocks of Cuban (Havana) leaf were reported at 1.2 million pounds -down 0.8 million from a year ago. Holdings of Philippine Islands at
38.4 million pounds were 1.6 million below the previous January 1.
Stocks of Indonesian leaf were 2.8 million (down 0.8 million); Brazilian,
7.3 million, (down 1.9 million); Colombian, 9.4 million (down 0.2 million);
Dominican Republic, 10.6 million (down 0.7 million); Paraguay, 10.0
million (up 6.0 million); Mexico, 4.9 million (up 0.5 million); and other
foreign-grown, 10.1 million (up 3.2 million).

STOCKS OF TOBACCO SHEET (see table 4)

Stocks of leaf tobacco represented in inventories of "Tobacco Sheet" totaled 35.1 million pounds (reported weight), compared with 23.2 million on the previous January 1. Of the total, 32.7 million pounds were for use in cigarettes and smoking tobacco, and 2.4 million for cigar binder and wrapper.

^{1/} Types 11-37 are reported on the basis of packed weight.

^{2/} Farm-sales-weight equivalent based on unstemmed sweated weight factor.

^{2/} The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, January 1, 1970, compared with other quarters 1/

^{1/} Totals include stocks of leaf reported in tobacco sheet. See separate reporting in table 4.

^{2/} Type 73 is defined as all demestic types of tobacco not otherwise classified; the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the types to which they properly belong.

^{3/} Separate reporting of Mexican stocks was not required until October 1968. In previous quarters Mexican totals were included as other foreign-grown cigar-leaf.

^{1/} Tabulated by broad groupings of ownership. "Other" represents stocks of dealers and those held in United States by foreign manufacturers. Stocks shown as of July 1 for flue-cured and cigar wrapper and October 1 for all other types.

2/ Auction sales substituted for production. 3/ Subject to revision.

4/ Necember 1 estimate, U. S. Crop Reporting Board, SRS. 5/ Includes 4.7 million pounds destroyed by fire.

6/ Less than 50,000 pounds.

Detail may not add to total because of rounding.

Table 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately

^{1/} Total includes stocks of leaf reported in tobacco sheet. See separate reportings in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are included as dealers' holdings.

4/ Includes stocks on the Island of Puerto Rico.

^{4/} Includes stocks on the Island of Puerto Rico.

^{5/} For explanation of stocks included in this classification see footnote 2 on page 7.
